Accessibility policy and plan 2022-2024

Our aim and values at Broom Barns Primary School

Our aim is currently been worked on, to reflect the great work we do.

It will show what values we promote and explicitly teach in our curriculum, so we helpbuild great children who are a credit to themselves, their family and their school.

We want the children to try their best in all that they do – to aim high to achieve the best they can.

Responsibilities
The governors of the school are responsible for determining the content of the policy and the headteacher for implementation.

Publication
This policy will be published on the school website.

Monitoring and evaluating
This policy will be monitored as part of the schools' monitoring and evaluation programme.

Inclusion and equality statement
Our school is an inclusive school. We aim to make all children feel included in all our activities. We try to make all our teaching fully inclusive. We recognise the entitlement ofall children to a balanced, broadly-based curriculum. We have systems in place for earlyidentification of barriers to their learning and participation so that they can engage in school activities with all other children. We acknowledge the need for high expectations and suitable targets for all children.

We actively encourage equity and equality through our work. No gender, race, creed, sexuality or ethnicity will be discriminated against. The school's Disability Equality Policy will be followed and the use of stereotypes under any of the above headings will alwaysbe challenged.

Introduction

At Broom Barns Primary School we believe that every child should have access to a broad,balanced, relevant and differentiated curriculum. This should take account of their individual strengths and needs and should allow each child to fulfil their potential.

Aims and objectives of this policy

o   To increase the extent to which disabled pupils can participate in the curriculum
o   To improve the physical environment of the school to enable disabled pupils to takebetter advantage of education, benefits, facilities and services provided
o   To improve the availability of accessible written information

Our Accessibility Plan (see the end of this document) has been drawn based upon the needs of the school and the school site, in conjunction with parents, staff and governors and will advise other school documents. The Accessibility Plan will be reviewed annuallyin respect of progress and outcomes.

The Accessibility Plan that follows this accessibility policy is structured to complement andsupport the school's equality objectives and will be published on the school's website. Weunderstand that Hertfordshire Local Authority will monitor the school's activity under the Equality Act 2010 and will advise upon compliance with that duty

We are committed to providing an environment that enables full curriculum access and values all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive actionin the spirit of the Equality Act 2010 with regard to disability and to developing a culture ofinclusion, support and awareness within the school

Our Accessibility Plan shows how access can be improved for disabled pupils, staff and visitors to the school in a given time

frame and anticipating the need to make reasonable adjustments to accommodate their needs where practicable.

The Accessibility Plan will contain relevant and timely actions to:
o Increase access to the curriculum pupils with a disability, expanding the curriculum as necessary to ensure pupils with a disability are as, equally, prepared for life as are the able-bodied pupils; this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits - it also covers provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe
o Improve access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe
o Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include handouts, timetables, textbooks and information about the school and school events; the information should be made available in preferred formats within a reasonable timeframe

The Accessibility Plan relates to the key aspects of physical environment, curriculum and written information.

Whole school training will recognise the need to continue to raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

The following Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

o Curriculum policy
o Equality Objectives
o Disability Equality Scheme
o Staff Development policy
o Health and Safety policy
o Special Educational Needs and Disabilities (SEND) policy
o Behaviour policy
o School Improvement Plan
o School brochure/ prospectus

The Accessibility Plan for physical accessibility relates to the Access Audit of the school, which was originally undertaken by the Local Authority and subsequently updated and remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of the Accessibility Plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be complete by the school to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the on-going period.
