<u>Google Classroom – Trouble logging in</u>
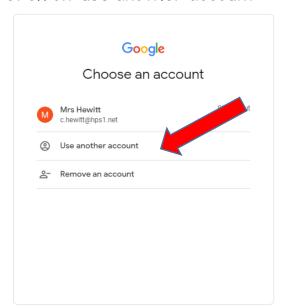

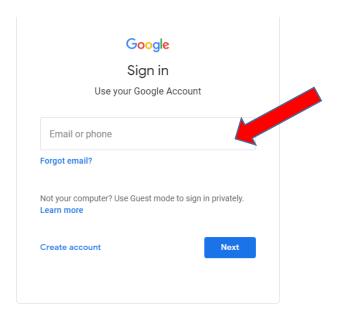

1. Check you are signed out from any google account you may have by clicking in the circle with your initial in the top right corner and choosing 'sign out'.

2. Type classroom.google.com in the address bar at the top of your browser.

3. Click on 'use another account'

4. Type your child's username in the box that says 'enter email or phone' (remember all usernames end with .net)

5. Enter the password sent to you on your class letter. You're in!

6. Click on the name of the class and that will take you to the main 'stream' where you should see messages from your teacher.

7. Click 'classwork' at the top to see the different assignments.

(At no point should you need to enter the 'class code'. If you are being asked for this, you have gone wrong somewhere above!)
