

# Opportunities to be R.I.C.H in our curriculum - Computing

- Make the most of all opportunities given to learn new computing skills.
- Understand that making mistakes is how we learn.
- Work collectively to support your personal and your peers learning.
- Treat your peers with respect on line and in person.

- Set yourself achievable goals
- Use feedback to improve your skills and consider next step.
- Independently find a range of information and resources on a specific topic.
- To show an understanding that not all information on the internet is safe.

- Grow and develop an interest in different aspects of computing.
- Present ideas and answers during whole class discussions.
- Do not be afraid to ask questions and make suggestions.
- Become an assertive learner by choosing appropriate applications.

- Work hard to become an expert in computing.
- Accept challenges and use them as an opportunity to boost your learning.
- Recognise when something is too challenging and seek support.
- Ask questions to create a prosperous learning environment.
