

Supporting French Learning at Home

There are many ways to support your child at home with their French development, many of which can be incorporated into daily routines.

For example, you could:

- greet your child in French
- say please and thank you
- ask them to identify different objects/ to describe things (e.g. colours)
- watch a short French animation of a cartoon your child links in French with English subtitles

Please use the links attached to help support the learning of French at home.

These links include games, interactive websites, shows and songs that you can follow at home to aid French learning.
